

I am writing in support of K-Love radio in Sioux Falls. K-Love is the most encouraging, positive, family-friendly radio station. It would be extremely discouraging if such a fine translator supported station would be replaced by a LPFM station of less quality. I believe it is in the public interest to have, listen to and support a station such as K-Love that is not ashamed to share God's love and encouragement. It offers positive music, help for those that are hurting and encouragement to live from day to day. I ask that you consider these comments and keep and preserve such an excellent radio service in my community and other communities that need positive messages on the air-waves. Thank you for your time and consideration.
